

ABHISHEK PATEL

Senior Flutter Developer • Cross-Platform Mobile Specialist

Surat, Gujarat, India • +91 7600175674 • patelabhishek102001@gmail.com • [GitHub](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 4+ years of end-to-end production experience shipping cross-platform apps to 20,000+ users across solar energy, healthcare, wellness, and education domains. Independently led architecture, development, and store deployment of 6+ production apps — two exceeding 10,000+ downloads. Brings rare depth in HIPAA-compliant healthcare development, full-stack mobile capabilities (Flutter + Django + Firebase), and proven CI/CD ownership with GitHub Actions and Codemagic. Mentored 3+ junior developers and delivered measurable performance gains (30% load time reduction)

CORE TECHNICAL SKILLS

Mobile	Flutter (Expert) • Dart • Cross-platform iOS & Android • Platform Channels (Swift / Kotlin)
State Mgmt	BLoC / Cubit • Provider • GetX • Clean Architecture • Domain-Driven Design • Repository Pattern
Backend	Django • REST APIs (Dio) • JWT / OAuth2 • Webhook Integrations • PostgreSQL • MySQL
Cloud & CI/CD	Firebase (Auth • Firestore • FCM) • AWS (Boto3) • GitHub Actions • Codemagic • Fastlane • Docker
Payments	Google Play Billing (IAP) • Razorpay • Subscription Lifecycle • ThriveCart • LemonSqueezy
AI & DevTools	Claude AI • Cursor • GitHub Copilot • ML Kit (OCR) • Gemini • Prompt Engineering • Function Calling
Testing	Unit • Widget • Integration (E2E) • Mockito • TDD • Flutter DevTools • Memory Profiling
Compliance	HIPAA Privacy Rule • Secure Data Handling • AES-256 Encryption • Session Policy Enforcement

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | [Sarvadhi Solutions Pvt. Ltd.](#)

May 2022 – Present • 4 Years

Full ownership of 6+ production apps across 4 industry domains — sole Flutter engineer on most projects

- ▶ Architected and shipped 6+ production mobile apps from scratch to store — owning technical design, Clean Architecture setup, BLoC/Provider state management, and Play Store / App Store releases across solar, healthcare, wellness, and education domains.
- ▶ Drove 10,000+ installs on two flagship apps (Solnce solar platform, BeStill wellness app) with ~30% reduction in app load time through performance profiling, lazy loading, and widget rebuild optimization.
- ▶ Built and maintained CI/CD pipelines using GitHub Actions and Codemagic — reducing manual deployment effort by ~70% through automated builds, code signing, and store submissions across 4+ apps.
- ▶ Integrated RESTful APIs using Dio across 6+ apps — implementing JWT token refresh, interceptors, pagination, offline caching, and error recovery, reducing API-related bug reports by an estimated 40%.
- ▶ Implemented Firebase Auth, Firestore, and FCM across 3+ apps; FCM push notification system on BeStill measurably improved daily active user retention by driving re-engagement.
- ▶ Delivered HIPAA-aware healthcare app (Dragon LTC Solutions) as sole developer — enforced AES-256 encrypted local storage, disabled screenshot capture, session timeout policies, and PII-safe logging to meet HIPAA Privacy Rule requirements.
- ▶ Integrated Google Play Billing API and third-party webhooks (ThriveCart, LemonSqueezy) for subscription lifecycle management on BeStill — supporting free trial, renewal, cancellation, and grace period flows.
- ▶ Bridged native iOS (Swift) and Android (Kotlin) code via Flutter Platform Channels for device-specific features including custom camera overlays and biometric authentication.

- ▶ Mentored 3 junior Flutter developers through weekly code reviews, architecture walkthroughs, and pair programming — improving team code quality and reducing review cycle time.
- ▶ Produced full technical design documentation (screen flows, API contracts, state strategy, edge cases) for every assigned module, enabling faster onboarding and fewer cross-team misunderstandings.
- ▶ Participated in client-facing calls and technical demos — articulating architecture decisions and trade-off rationale to non-technical stakeholders.
- ▶ Leveraged Claude AI, Cursor, and GitHub Copilot to accelerate feature delivery by ~20% while maintaining test coverage and code quality standards.

Flutter Developer Trainee | [Krishna Soft Web](#)

Oct 2021 – Mar 2022 · 6 Months

- ▶ Built production-ready training projects applying Dart fundamentals, widget lifecycle, REST API integration, Material Design, and navigation patterns — establishing strong Flutter foundations.

KEY PROJECTS

Solnce – One-Stop Solar Platform [Play Store](#)

Flutter · REST APIs · Firebase · Provider · Google Maps API · Payment Integration

- ▶ India's first all-in-one solar service platform — 10,000+ installs; led end-to-end development enabling rooftop, industrial, and ground-mounted solar bookings with live project tracking.
- ▶ Achieved ~30% app load time reduction via performance profiling, lazy loading, and widget rebuild optimization; designed document upload flow for government subsidy approvals.

BeStill – Christian Meditation App [Play Store](#)

Flutter · Django (Python) · REST APIs · Google Play Billing · Audio Streaming · Firebase

- ▶ 10,000+ installs; delivered full-stack wellness app with audio streaming, scripture-based guided sessions, and subscription monetization (1-week free trial, renewal, grace period).
- ▶ Built webhook integrations with ThriveCart and LemonSqueezy for subscription lifecycle events; FCM push system drove measurable improvements in daily user engagement.

Dragon LTC Solutions – Healthcare Cost Management [Play Store](#)

Flutter · REST APIs · Admin Architecture · Email Integration · HIPAA-aware Development

- ▶ Sole developer — independently architected and deployed pharmaceutical cost optimization app for Long-Term Care facilities, handling patient admissions, prescription tracking, and billing audits.
- ▶ Applied HIPAA Privacy Rule requirements: AES-256 encrypted storage, screenshot prevention, session timeout enforcement, and PII-safe audit logging.

Gateway Educonnect – Study Abroad & Immigration Platform [Play Store](#)

Flutter · REST APIs · Razorpay · Firebase · BLoC

- ▶ Built Instant Apply feature for university filtering and applications; integrated Razorpay payment gateway and developed exam prep modules for IELTS, PTE, TOEFL, GMAT, and SAT.

Garbh Sanskar – Pregnancy Education App [Play Store](#)

Flutter · REST APIs · Firebase · Local Notifications · Provider

- ▶ Developed maternal wellness app with daily routine-based content and local notification reminders; optimized for low-to-mid-range Android devices to maximize accessibility.

NextGen – Flutter Multi-Platform Admin Panel

Flutter · BLoC · Responsive/Adaptive Layout · Mobile · Tablet · Desktop · Web

- ▶ Built fully responsive admin dashboard with adaptive layouts across all four Flutter platforms (mobile, tablet, desktop, web) using a consistent design system.

EDUCATION

Bachelor of Computer Applications (BCA) — Computer Science & Software Engineering Apr 2018 – Mar 2022

Veer Narmad South Gujarat University, Surat • CGPA: 7.28 / 10.0

Relevant Coursework: Data Structures, Algorithms, DBMS, OOP, Operating Systems
